TELECOMMUNICATIONS IN CHINA

Dr. Hui Chen

**Ministry of Information Industries
Beijing, China**

**Friday, February 1, 2008
12 noon–1:00 PM
191 Deeb Conference Room
Communication Arts & Sciences**

Light lunch provided

Dr. Hui Chen is the director of Transmissions and Access Network Research Department of Telecommunications Planning and Research Institute of MII (Ministry of Information Industry of China). He has more than ten years work experience in telecommunications network planning and design in China and he is now a visiting scholar of Michigan State University.

The presentation will discuss China's remarkable success in modernizing its telecommunications infrastructure. China's large population constitutes an enormous market for telecommunications. The lecture will give a general idea about the telecommunications industry development in China with the most authoritative and latest updated data. It will include market, competition, network, technologies, investment, regulation, and future development plans.
