

**Press Statement of
Commissioner James H. Quello**

August 8, 1997

On August 6, 1997, I released a Press Statement congratulating William Kennard on his designation for Chairman of the FCC. In recognizing the difficult choice the President had to make, I inadvertently omitted Commissioner Susan Ness from the list of eminently qualified candidates. I have enjoyed working with Commissioner Ness and value her insight and counsel. I am pleased that the Commission will continue to have the benefit of her expertise, especially in the areas of financing and international issues.
