

Statement of FCC Commissioner James H. Quello  
In Re: Renewal of License for KFOG  
San Francisco, California

While I approve of the result reached in this case, I am concerned over the continuing policy of the Commission majority to find "standing as a party in interest" on a minimal showing. Petitioner presumes its status to have standing without a claim that any of its members are actual listeners of KFOG. The status of petitioner's standing as a party in interest is likewise assumed by the majority and no discussion whatsoever is given to the matter of standing.

My views on the matter of standing were recently expressed in detail in McCormick Communications, Inc. (WEZE), Boston, Massachusetts, application to assign license. \_\_\_ FCC 2d \_\_\_ (FCC 78-176). I incorporate by reference those views herewith.
