

CONCURRING STATEMENT OF COMMISSIONER JAMES H. QUELLO

In this instance, the issuance of a short term renewal is merely symbolic and carries with it no practical effect since the filing of the regular renewal application is only a short time ahead. In view of the pending transfer of this station, the close scrutiny of the licensee which attends a short term renewal will fall upon the assignee and not the operator accused of error. While I'm confident the new licensee will be able to withstand such scrutiny, it seems to me that the Commission's action has missed the mark.

Therefore, I concur.
