For Certificate of Compliance)	

MEMORANDUM OPINION AND ORDER

Adopted: May 28, 1975; Released: June 5, 1975

By the Commission: Commissioners Hooks and Washburn absent;
Commissioner Quello dissenting and issuing a statement.

1. On April 10, 1975, TelePrompter Cable Systems, Inc. filed an application for certificate of compliance for its existing cable television system at Johnstown, Pennsylvania. In view of our opinion in TelePrompter Cable Systems, Inc., FCC 75-530, ___ FCC 2d ___, (released May 13, 1975), the Commission finds that a grant of the captioned application would not be consistent with the public interest.

Accordingly, IT IS ORDERED, That the application for certificate of compliance (CAC-4951) filed by TelePrompter Cable Systems, Inc. IS DISMISSED.

FEDERAL COMMUNICATIONS COMMISSION

Vincent J. Mullins
Secretary

DISSENTING STATEMENT OF
COMMISSIONER JAMES H. QUELLO

I dissent to the action of the majority dismissing the application for certificate to the Johnstown TelePrompter cable system, for the reasons stated in my earlier dissent in TelePrompter Cable Systems, Inc., FCC 75-530, FCC2d, (released May 13, 1975).
