Dissenting Statement of
FCC Commissioner James H. Quello

In re: Petitions for Reconsideration in the Gloucester, Massachusetts
Comparative FM Renewal Proceeding.

I would grant reconsideration so that the Commission could reexamine its comparison of the two applicants. The grounds on which I believe Mr. Geller's application should be preferred over that of the Grandbanke Corporation are fully described in the joint statement of Commissioner Washburn and myself which accompanied the original decision. See Simon Geller, 90 FCC 2d 250 (1982) (dissenting opinion).
