Dear Joel,

I want to thank you for your valuable contribution to the development of High Definition Television. If they ever erect a memorial to those who delivered HDTV to the public, then your name should be prominently displayed on that memorial. Your outstanding performance as Chairman of the Board of the Advanced Television Test Center is yet another accomplishment in a successful career dedicated to better broadcast programming and technology. Through your leadership and the hard work of all those involved with the Test Center, the United States has become a leader in terrestrial HDTV technology.

I wish you continued achievement in the exciting years ahead.

Cordially,

  
James H. Quello
