

Remarks by Commissioner James H. Quello

before the

Broadcast Pioneers Golden Mike Award

New York, NY - March 8, 1994

It is always a pleasure and special privilege for me to be here with my fellow broadcast pioneers to participate in this significant Golden Mike Award Ceremony for the distinguished pioneer station WRAL-FM in Raleigh-Durham.

Fletcher is not only a respected but a revered name in broadcasting and communications. So Frank and Fred, congratulations on your years of broadcast leadership. It is a pleasure to present you a true copy of the original FCC license for WRAL-FM, a great FM pioneer station. I want to further recognize your proud overall record of 72 years of distinguished service to the public in both radio and TV.

803a

My heartiest congratulations. It is particularly pleasing that this pioneer station is in such responsible hands. The heritage of quality, integrity and responsibility in programming and management is being updated and further strengthened today.

So again, congratulations to you and best wishes to Capitol Broadcasting for continued leadership in the exciting years ahead!
