

Statement for Centerpiece of Michigan State Football Program

James H. Quello

Mary and I consider it the ultimate honor that our names are destined to be associated with our beloved alma mater in perpetuity with the establishment of the James H. and Mary B. Quello Center for Telecommunications Management and Law.

For me it is the paramount capstone of a long and varied communications career that originated at the Michigan State News and WKAR, the 5,000 watt college radio station. I was blessed, too, that I graduated from a great university which provided the rich, broad communications and liberal arts background for whatever I was able to achieve in life.

For Mary, it recognizes her distinctive talent as a fashion designer and her sales communications ability as a boutique entrepreneur.

So heartfelt thanks to Michigan State University and the generous contributors for this most memorable, gratifying and enduring of our lifetime experience.
