

SALUTE TO MARGITA WHITE
(for NAB convention tape)

I was honored to serve on the FCC with Margita White.

She expertly analyzed complex communications issues, was a brilliant writer, a sterling character and a great ally.

Margita judiciously enforced necessary FCC law, but was a true believer in the free enterprise system, First Amendment rights and the vital public service contributions of broadcasters. She is a real "class act" with brains, statuesque beauty and human decency.

It is most fitting and, perhaps overdue, for the NAB to honor this great American lady with the Spirit of Broadcasting Award.

Margita, you were and are the very best of the compassionate human species.

God bless you.
