

CONCURRING STATEMENT OF
COMMISSIONER JAMES H. QUELLO
(Docket Nos. 19122 through 19125)

I consider this action to be harsh in the extreme. To impose the "death sentence" upon all broadcast properties operated by this licensee is the ultimate sanction which we can impose. I would welcome a resolution of this matter which did not carry with it the finality of this action. A search of the record for mitigating circumstances, however, fails to turn up convincing evidence that any course short of the action we have taken could reasonably be expected to ultimately serve the public interest.

If, in spite of the findings in this case, there were indications of simple error or isolated lapses in judgment to which we are all subject at times, I could not assent to this. The record, to the contrary, shows patterns of misconduct over a considerable period of time which justify the conclusion reached by a majority of the Commission.

Therefore, I reluctantly concur .
