CONCURRING STATEMENT
OF
FCC COMMISSIONER JAMES H. QUELLO

In re: Reconsideration of the Report & Order Modifying FM Broadcast Station Rules to Increase the Availability of Commercial FM Broadcast Assignments, BC Docket No. 80-90.

While this is not the course I would have chosen,^{1/} it does appear that significantly increased opportunities for local FM service may result from this decision. Since the item does recognize legitimate concerns of existing FM licensees as they seek to conform to the new policies, I concur in the result.

^{1/} See Dissenting Statement of Commissioner James H. Quello, Report & Order in BC Docket 80-90, 48 Fed. Reg. 29486, June 27, 1983.
