Dear Jim:

Belatedly, I want to thank you for sending me your remarks of March 11 on the business of the TV news conference.

I have been carrying your cogent remarks with me for some time in my "read on the plane" file for various international trips. You were very kind to send me your speech entitled "Press Under Fire: Jefferson Revisited."

Your remarks were most informative. I was delighted with your sense of humor. The gossamer shafts were right on target with the press where they had a significant impact. Keep up the good work!

Best wishes.

Sincerely,

Charles Z. Wick
