

FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C.

See

432

OFFICE OF COMMISSIONER
JAMES H. QUELLO

July 30, 1986

Membership Committee
Army Navy Country Club
2400 18th Street
Arlington, VA 22204

Gentlemen,

I am acting upon your recent generous offer and respectfully requesting that my temporary membership be converted to a resident membership.

My wife and I enjoy the club and have been active users of your dining and tennis facilities. We particularly value identifying and associating with present and former members of the armed services.

It is generally accepted within the FCC and the Reagan administration that I am an unwavering supporter of a strong defense and the military establishment.

I would appreciate a regular resident membership because I would feel more supportive of the club and more comfortable using its facilities. For years I was an active regular member of the Grosse Pointe Yacht Club, the Detroit Golf and Country Club and the Detroit Athletic Club. I still retain a non-resident membership in the Detroit Athletic Club.

My present term as Federal Communications Commissioner expires June 30, 1991. I believe my military record is already in your temporary membership file. Briefly, I served as an Infantry officer from September 30, 1940 to November 1945 including 32 months overseas with the Ninth Infantry and 45th Infantry divisions. I served as a combat battalion commander in France and Germany.

I'll be glad to supply further information on request.

Sincerely,

James H. Quello
