Dear Bob,

I was delighted to see Broadcasting magazine (Dec. 14th) recognize your community development projects at channel 56 involving new dimensions of community service.

Congratulations on this worthy public service concept in telecommunications. It was characteristic of the constructive programming under your able leadership at channel 56. Naturally, television projects benefiting the people of Michigan are of special interest to Chairman John Dingell and me.

Best wishes for continued achievement in the challenging years ahead.

Cordially,

James H. Quello
