

**REMARKS BY COMMISSIONER JAMES H. QUELLO
FOR PRESTON PADDEN ROAST**

I find there is much more to toast than roast in Preston Padden.

It simply is not true that Rupert found him so spaced out that he gave him an active direct satellite assignment.

Actually in Preston, you get what you see -- and what you see is a bright, no double-speak, no nonsense, articulate, resourceful executive and a loyal, valued friend -- and for a few others, a most formidable adversary.

I'm proud to call him my friend and he has my very best wishes for continued achievement in his exciting new assignment.
